SAVE THE CRYSTALS & LEAD THE WORLD TO PEACE!

Mystic Quest™ is a role-playing game which asks you to do 2 things: to protect the vital Crystals of the Earth, and to destroy the enemy which threatens these Crystals. There are a total of 4 Crystals of the Earth: the Crystal of Water, the Crystal of Fire, the Crystal of Earth, and the Crystal of Wind. The Dark King's henchmen have stolen the Crystals, and the King is using the power of the Crystals to do vile deeds. And guess what? You are the only one who can save the World...

Now, as you make your way through the adventure, there are many important points to keep in mind. First, you will meet many people along the way, in towns and other places. Be patient, and talk to them all. By piecing together all their bits of information you will have no problem discovering where to go next. You might be stuck if you miss out on even one conversation. Even worse, you might not hear about a helpful or powerful item!

Next bit of advice: Always take time to open every chest you find along the way, especially the red and gold Treasure Chests. These brightly colored Treasure Chests often contain items you absolutely need to advance through the game. Even though they might be protected by fierce monsters, find and open them all!

Required Reading: Make certain you've read your manual, and mastered the various menu commands and functions. You might be surprised at what we've packed into this game! The more you've mastered the use of Items, Weapons and so forth, the more fun you'll have beating the game.

Finally, we hope you will put this strategy guide to good use! We've packed it full of information to help you get the most enjoyment from your adventure. The book is divided into 5 chapters, one for each of the 4 Crystals of Earth, plus a final chapter on the Crystal of Light. You can follow along, scene by scene, to make sure you're not missing any important treasure, and to help you through caverns and dungeons. You'll also have instant access to information on the special properties, and uses of newly discovered treasure.

Enough talk! It's time to prepare yourself for the quest. You're beginning a one-way journey which can only end at the Dark King's doorstep. Prepared? Remember: Never let a monster get you down, always stand ready to help a friend, and keep a sharp lookout for treasure! Good luck.

It is written, "The one who possesses the Crystals of the Earth controls the World." Alas, the Dark King, a being most rancid in character, has succeeded in gaining control over the awesome power of the Crystals. His henchmen have grabbed the Crystals and are draining the World's magical energy as if it

were soda pop. Earthquakes are shaking the land. Volcanoes are threatening cities. Forests are withering...

One day a powerful earthquake sends a young man scurrying for safety. As he runs, he watches his village disappear into a deep fissure. All hope leaves him as he scrambles up the steep not, end in global salvation...

Hill of Destiny. But suddenly, a strange gentleman appears and guides him to safety. The youth can't believe it when the man hands him a sword, and tells him he is actually a legendary knight, destined to save the World! So begins a series of adventures which may, or may

The sage White appears and tells all.

Can you handle that sword?

What's lurking in Level Forest?

MYSTIC QUEST

Behold, the Mystic Quest World! Notice all the Icons, which represent things such as towns, caves, and dungeons. To get from one Icon to the next you'll have to find your way through a maze, solve a puzzle, or fight some intense battles. Match the color on the map with the headings below to find out more about that area.

THE CRYSTAL OF EARTH

p 15-24

Chapter 1 handles the quest for the Crystal of Earth. Parched earth, sand and withered forests take center stage here. The first fearsome Boss Monster awaits you, so stay alert!

THE CRYSTAL OF WATER

p 25-40

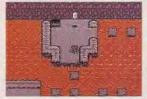

Now you're traveling through the region in which the Crystal of Water is hidden. Because the light from the Crystal is weak, all water has turned to ice. Your task is to melt the ice!

THE CRYSTAL OF FIRE

p 41-52

The earth shudders as you step from Icon to Icon. The World seems like it's about to split apart. As you clear a huge boulder from your path and save the Crystal you'll learn about your next destination.

THE CRYSTAL OF WIND

p 53-64

Through the Focus Tower again, and then across the Rope Bridge. A cranky Giant Tree and Pazuzu's Tower await you as you search for the Crystal. Consult your dungeon maps often!

THE CRYSTAL OF LIGHT

p 65-76

What is the Crystal of Light? What does it do? You won't know until you scale the steps in the Focus Tower for the last time and have tea with the Dark King...

The Crystal of Earth

In the opening chapter of the quest, you learn about your own fate, and meet up with the peculiar young woman, Kaeli of Foresta. Together you vow to restore the level forest to its formerly green and peaceful state, but in the process, Kaeli gets poisoned. In order to help her, you've no choice but to find Elixir. Your chase will eventually lead you to the dreaded Bone Dungeon, and the Crystal of Earth.

FIND OR WIN THE FOLLOWING 9 THINGS:

Tree Wither (p. 17), Cure Spell (p. 18), Axe (p.19), Charm (p. 20), Quake (p. 23), Steel Shield (p. 21), Bomb (p. 21), Elixir (p.23), Sand Coin (p. 23)

HILL OF DESTINY (OPENING)

Fleeing for your life, you find yourself scrambling up the Hill of Destiny while the earth shakes you silly. There you meet a most peculiar gentleman who urges you on to temporary safety. He warns you to jump for your life, as the ground you had been standing on is swallowed into the earth. Gasping for breath, you listen as the older gentleman (who is known as

White) spins an unbelievable tale—and you turn out to be an important part of it! Out of the blue you are attacked, and are amazed to learn you can handle a sword. You believe the old man's story, and vow to save the Crystals of the Earth. But as suddenly as he arrived, he takes off! Follow him to the Level Forest.

JUST BY PRESSING THE B BUTTON!

Use the B Button to help the Hero jump over and across things! Never forget your jumping skills. Oh, just don't try to jump over monsters—it makes them mad!

WHITE

Just who is this wizened elderly sage who seems to know so much about you, and about the future? You'll meet him time and again during your adventure. Sometimes he just seems to want to joke with you, but at any rate, always listen to his advice!

When White talks, listen.

BEHEMOTH

The Behemoth will find you as you talk to White on the Hill of Destiny. Why has he come to hurt you? Since the only weapon you have is a sword, use it to thrash the beast, and don't stop until you've thrashed it!

HP	Attack Power	Defense Power
80	1	25

THE HERO'S EQUIPMENT

THE STEEL SWORD

The Hero's first weapon. Sturdy and easy to use, if not too effective. It's certainly better than nothing! In fact, your enemy wishes you had never received it!

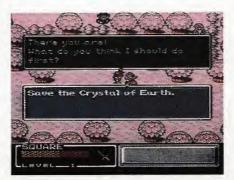

STEEL ARMOR

Pieced together from plates of steel, heavy and just barely adequate. It won't protect you from magic, so keep on the lookout for something stronger!

LEVEL FOREST

White directs you to your next location

When you enter the Level Forest, you'll see that all the trees and shrubs are withered and on their way out. Listen to White and learn that you must first save the Crystal of the Earth. (White's not much of a talker.) Now, see the guy in the upper right portion of the screen? Go talk to him and see what he says.

TREE WITHER

Received from the guy you helped in the Level Forest. Take this and show it to Kaeli, and maybe you'll get her to help you in your guest.

Help the man in the forest

This poor guy is weak. You are strong. Do him a favor and push the boulder out of his way.

Face the boulder, and press up on the Control Pad. He'll give you a withered branch he calls Tree Wither, and tells you where to take it—to Foresta!

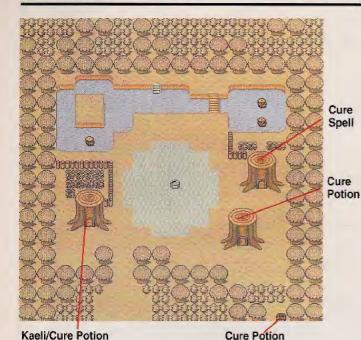

CURE POTION

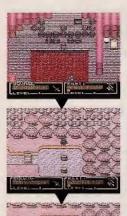

Learn quickly how to use this life-saving medical brew. With each sip it restores some of your HP. Use it during battle, or while you're traveling through an Icon. Find it in Chests, or buy it in the latter half of the game.

FORESTA

Find the hidden Cure Spell!

A man tells you to take the object hidden in the back of his house...but how do you get there? Go around to the back, jump over the steps in the water (by pressing the B Button), and enter through the rear. There's a Chest! Grab the contents, then move the barrel out of the way, and exit the house.

CURE SPELL

Use this Spell to replenish your Vitality. You can use the Spell on yourself, your Ally, or on both of you at once as the case may require. Each use of the Spell reduces your white magic MP by 1.

Talk to everyone in town!

When you enter Foresta, you'll see that all foliage is brown, and there are only elderly people walking about.

Talk to them, and you'll discover that a monster has been absorbing the vital energy of all living things in the area, aging them prematurely. You've got to help them!

Kaeli joins you.

When you find Kaeli, she'll notice the Tree Wither you were given in the Level Forest, and join forces with you. Her mother isn't, however, overjoyed by Kaeli's decision to join in the guest...

Get HP for free!

Enter the house at the bottom right of the town, and make your way to the left bed in the back. Lie down on it, and it'll restore any lost Vitality and Magic Points whenever you need help.

KAELI

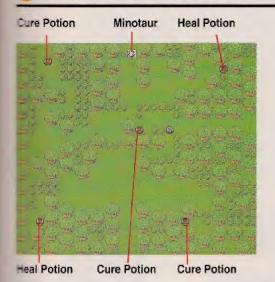

A young woman of Foresta with powerful special abilities, such as the ability to talk with trees! She can handle an Axe with the best of 'em, and knows the magic Spell Life, which can bring a fallen person back to life!

LEVEL FOREST

Battle your way to the north exit!

When you head back to the Level Forest, Kaeli will come in handy by cutting trees down with her Axe. Keep heading northward as you battle monsters along the way. When Kaeli tries to chop down an oddly glowing tree, the Minotaur appears and zaps Kaeli with a deadly poison.

There is only one antidote to the poison—Elixir. With her last ounce of

strength, Kaeli loans you her Axe, and you exit the forest towards the north, looking for Elixir.

MONSTERS:

BROWNIE, SLIME

HEAL POTION

This medicinal herb will cure all statusrelated illnesses, such as Blind, Poison, Petrify and so forth,

with the exception of Doom. Said to be concocted from magical plants growing in distant and mist-filled forests, this Item is rare and sought after.

Half human, half monstrous steer, this beast is all trouble. Animal from the shoulders up, the Minotaur attacks relentlessly with a huge sword, and has been known to kick ferociously.

OPEN THE CHEST!

So you're off to the the Sand Temple to find some Elixir for Kaeli, huh? Well guess what. There's nothing in the Chest there! Someone's beaten you to the punch. That someone is Tristam, the cheekiest treasure hunter that ever slithered on the World. You can't afford his price on that Elixir, but he'll give it to you if you help him. Poor bargain, but maybe you can save Kaeli! Tristam joins the party.

TRISTAM

Tristam is renowned for his Ninja Star throwing abilities, and his treasure hunting skills-but don't trust him for a moment. He is fairly trustworthy when he promises something, but he'll take off on you in a flash if he smells profit!

MONSTER: MAD PLANT, POISON TOAD, BASILISK

B Basilisk

A fearsome lizard that generally feels happiest after consuming poisonous creatures bigger than itself. It likes to attack with sharp tusks and claws.

In this Battlefield there are monsters that specialize in poisoning their adversaries. When poisoned, you will lose some of your Vitality after each round, so use a Heal Spell or Potion ASAP!

CHARM

After clearing out the 10 rounds worth of monsters in this Battlefield, you'll win a prize: the Charm Pendant. Made out of a mysterious emerald-colored material, the Charm Pendant instantly increases your defensive abilities.

BONE DUNGEON

Beware the shifting sands

There are many areas within the Bone Dungeon where shifting sands can pick you up and carry you away. Some of these shifting sands can be traversed in one direction only, and others simply have to be avoided by walking near the dungeon walls.

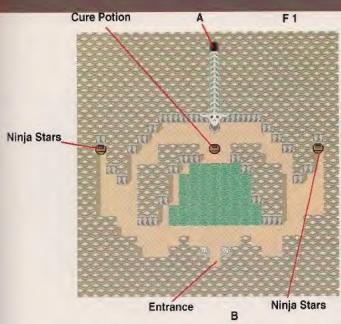

NINIA STARS

The weapon favored by the Japanese Ninja of old. Powerful in effect, and fast as bullets, these stars stop many monsters in their tracks. Check in Chests to replenish Tristam's supply of these valuable weapons.

THE CRYSTAL OF EARTH

Tristam sells you Bombs!

After you have made your way quite some distance into the Bone Dungeon, you will come to a seemingly impenetrable barrier. Fear not, because Tristam will blow the wall open with a Bomb. Then he'll sell you some for 30 GP. Decline his pricy offer, and see if Tristam will cut you a deal!

BOMB

Use your Bombs in battle, or to open doors (and bone jaws!) and the like. Detonate a bomb by pressing the A Button at the desired location. The Bomb Icon must appear in your Vitality Window.

Remember, you can't jump onto a step from the water.

Save the Crystal of Earth!

In the deepest recesses of the Bone Dungeon lurks the Flamerous Rex, new owner of the Crystal of Earth. Use the Quake Spell and all your combined skills to thrash this beast, and then behold—the Crystal of Earth will appear in all its

glory. The energy stolen by the Rex will go back into the World, and revive forests and restore people's youthfulness. Get the Eilixir from Tristam, and head back to see Kaeli—but don't forget the Sand Coin!

QUAKE

A Spell that lets you attack a monster with a savage earthquake. Can only be used on entire groups of monsters, so those that can recover their Vitality won't be hurt too badly.

ELIXIR

The one medicinal concoction that can help Kaeli fight off the Minotaur poison. Made eons ago by mountain holy men, this stuff is in short supply!

SAND COIN

Engraved with a Knight's Sword, this coin sparkles with a mysterious power. With this coin you can open the similarly adorned door in the Focus Tower.

FLAMEROUS REX

An evil fossil come to life, the Rex is draining the Crystal of Earth and causing earthquakes and heartache. Watch out for its teeth, and its sleep and poison dust attacks. Oh, and did we mention the Bone Missile attack? Go get him!

FORESTA

QUICK, GIVE KAELI THE ELIXIR!

After thrashing the Rex, and receiving the Elixir from Tristam, head back to Kaeli in foresta ASAP. You won't recognize the town when you see it again. Under the Crystal of Earth's power, the trees and bushes are green again, and the people look younger and fresher. First go see Kaeli, for she's

on the brink of death! After she revives, she tells you she's going through the Focus Tower to Aquaria. There someone named Spencer might know the whereabouts of her father. You'll go there ahead of her to scout around!

Listen to the people in the town

They've suddenly reverted to their real ages—the grandma is now a little girl, the grandpa a little boy. Accept their praise,

but also keep an ear out for new information about the next leg in the adventure.

BATTLE FIELD -3-

MONSTERS: Minotar Zombie, Sand Worm, Basilisk

Look for Minotar Zombies, Sand Worms and Basilisks to greet you in this Battlefield. Since you're all alone now, this is going to be tough. But if you can hang in there for 10 rounds, you'll

receive 150 Gold Pieces! Or else come back when you've an Ally.

THE CRYSTAL OF WATER

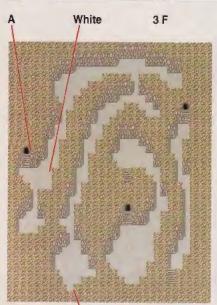

You make it to Aquaria, but the whole town is frozen solid. In order to help the suffering townspeople, and to meet Spencer, you have to make the Crystal of Water shine again. Once again you're off and running...

Continue further into the Libra Temple, and you'll notice someone standing there. Talk to her, and you'll find out she's pretty frustrated. To get to the Wakewater you need the Libra Crest, which was stolen by the monster in the Wintry Cave. Whew! Go beat up the monster, and get that Crest back!

But he can't get out of it!

Now you can creep up and down cave walls!

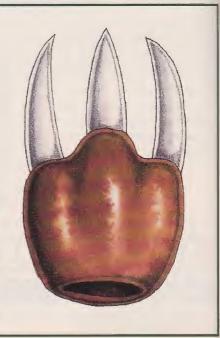

CAT CLAW

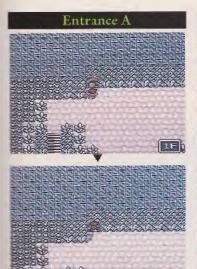

Looks like a bunch of steel claws, and feels like them too, at least to your enemy. Can cause a monster to become paralyzed if the claws dig deep enough. To use the claw after you receive it, equip it, hold the A Button down, and use the Control Pad to climb or move left and right.

Find your way down to the first floor, and then back up to that section of the third floor (see map).

ARROW

You'll need to replenish Phoebe's supply of arrows as she uses them. The arrows have no special properties, but the powerful Bow of Grace shoots them like lightening! You can gather as many as 99 arrows for Phoebe.

LAND WORM

LAND TURTLE

This shell-protected amphibian can't cast Spells, but attacks with claws (causes paralysis) and poison.

Make your way further and further into the Wintry Cave, and finally you'll arrive at the platform upon which the Squidite sits. He's rather formidable looking, buy you have to beat him in order to reach the Chests he's guarding. After dispatching this pest, walk up to the Chest and press the A

Button to remove the Libra Crest. You'll need it to Warp from the Libra Temple to the Life Temple to get some Wakewater.

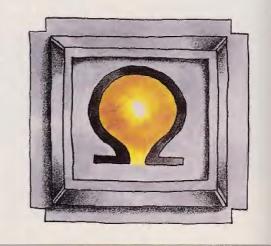

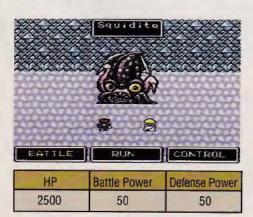

LIBRA CREST

The ancient Libra Crest is literally thrumming with mysterious power. Take it to the Libra Temple and stand on the spot on the floor that looks like the design on the Crest. Bingo!, your Warping! But you're not a World traveler now—you can only Warp to the one location accessed by the Crest. See p. 66 for more info on Crests.

But not to worry, you hear a noise coming from the other room, and go to find its source. It's White! He calms your fears, and explains that he was able to collect the last remaining bit of Wakewater. Take it, and return to Aguaria immediately!

WAKEWATER

An ultra-pure liquid that flows from the ancient spring in the Life Temple. Linked to the power of the Crystal of Water, Wakewater once sparkled brightly, and

You've raced back to Aquaria with the Wakewater, and you make your way to the Medicine Plant, at the heart of the town. You close your eyes, cross your fingers and pour forth the Wakewater. This is the last defensive item you will find during your quest. Grab it before tackling the horrible Rex. By the way, try a Mega Grenade or two on the Rex, and see if anything comes loose!

AEGIS SHIELD

Fortified with the strength of the gods, the Aegis Shield has the highest defense rating of any shield in your possession. It protects against Petrify and Paralysis attacks.

B1

Use the Sky Coin to open the door.

On the 1 floor of the Focus Tower you and Phoebe will come to a final sealed door. The door will open, allowing you access to the deeper recesses of the Tower. The Dark King awaits you at the top of the stairs, but you've got some work to do, first.

MONSTERS:

Gorgon Cerberus
Shadow Minotar Zombie
Phanquid Freezer Crab
Thanatos Chimera
Stheno Iflyte

CERBERUS

A guard dog of the dungeons. It uses its 3 mouths to Confuse its enemies. It can also Petrify and bring Doom to a hapless enemy.

Flick those switches

The key point for this floor is switches, which number 8 in all. If even 1 switch is forgotten, you will not be able to reach the Stone Golem, the Boss of this floor. To operate a switch, equip your sword, stand in front of the proper statue, and press the A Button.

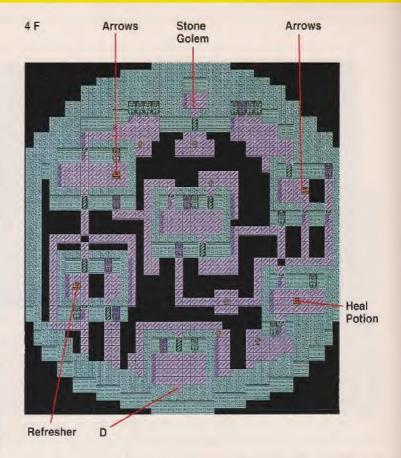

Use the Dragon claw to jump over gaps.

To get through this floor you'll have to jump some gaps, and use the Dragon Claw to leap over others. To use the claw, line yourself up with a tie-down (gray loop), and press the A Button.

Topple the Boss, and a new path opens

Topple the Stone Golem, exit the area and you'll find another flight of stairs open to you. As you beat the Boss on each floor, another set of stairs will open. Grit your teeth, and get ready for anything!

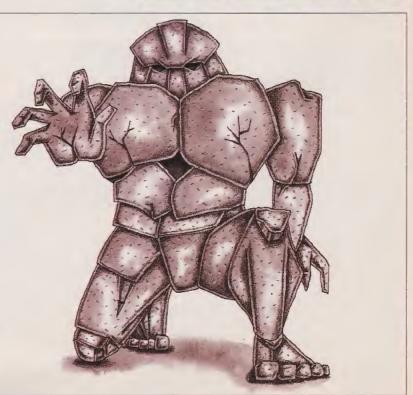

STONE GOLEM

A magical being assembled by the Dark King out of blocks of stone, which he loves to throw at his enemies. (Don't get hit by one of these, or you'll lose a lot of your Vitality.) Keep your Vitality levels as high as possible, and look out for Thunder, Confusion and Paralysis attacks.

Jump across those stones.

At first glance, this floor seems like a breeze, but it is actually a pretty challenging maze. There is only one correct pathway that will let you clear this floor. The path leads you in somewhat of a circle, but at the end of it sits the Boss of the floor, the Twinhead Wyvern.

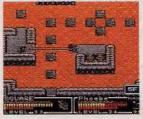

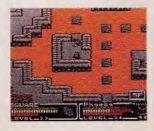

Can't go left here.

Jump wisely, and meet the Boss

Use the Dragon Claw

Just as on the 4 floor, there are many times when you have to use the Dragon Claw to continue here. Aim for the upraised lumps of earth, and press the A Button. You can jump over these, too. Oh, and don't worry about falling into the lava.

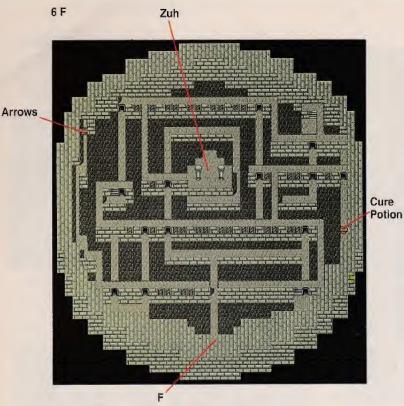

Huge leathery wings, and two vicious-looking heads adorn this frightening looking beast. The Wyvern can attack with Fire, Paralyze and Poison breath attacks, and also has the ability to Petrify, and cast powerful Thunder Spells at, an enemy.

Be careful on the 6 floor

If you don't look where you are walking while making your way through the 6 floor maze, you can find yourself falling back down to the 5 floor. If this should happen, you'll have to find your way out of the 5 floor maze again, make your way back up the stairway to the 6 floor, and retrace your steps through the 6 floor again.

No fear of falling in the tunnels.

You'll have to make your way through several tunnels that cover the pathway on this floor. There are no trap-holes in these to make you fall to the 5 floor. The bad news is that there are monsters lurking in these darkened passageways! Who-said, "What you can't see can't hurt you?"

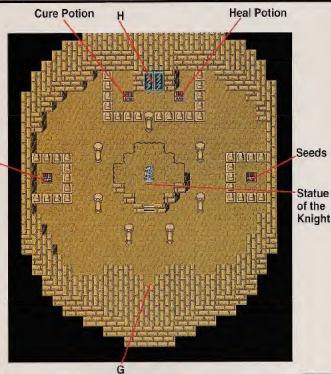

ZUH

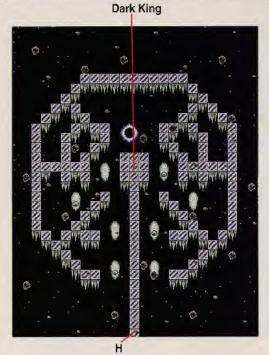

The older, and meaner, cousin of Pazuzu, Zuh attacks very much like Pazuzu, with the addition of a particularly deadly Doom Dance attack. Watch out for Zuh's Psych Shield—activated when he flaps his wings—which protects him from Spells. Keep out of the way of his Sky Attack, Pile Driver, Hurricane and other special attacks, too.

DOOM CASTLE (Map is a continuation from the Focus Tower Map)

Statue of the Knight

After defeating Zuh, you and Phoebe make your way up the stairs. At the top you find a room holding a statue of a knight. You walk up to it and, wonder of wonders, it begins to talk to

you. The statue is really a tool through which all the Crystals of the Earth can speak to people of the World. As a reward for saving the Crystals, these celestial entities decide to favor you with their power, which you will desperately need to defeat your final enemy.

Arrows

Doorway to the final battle

After removing the contents from all the Treasure Chests around the statue, you must prepare yourself mentally for the battle to come. Beyond the door at the top of the screen waits the Dark King, evil incarnate.

DARK KING

The Dark King, the root of all evil in the World. He has been absorbing the light from the Crystals in order to fashion a dark evilworld upon which only monsters would live. As you battle the Dark King, he will transform into 4 different shapes. His battle tactions change depending on his form. Battle him relentlessly, keeping a

sharp eye on your vitality levels. Topple him, and you'll relieve the suffering of the World's people. Gather your courage, and...CHARGE!

HP	Battle Strength	Defense Strength

In the days after the Great Battle with the Dark King, people the World over would stop whatever they were doing and utter a silent "thanks" to you and Phoebe. Nature slowly regained its normal patterns. Trees and shrubs began to flourish under gentle seasonal rains, and water that had been frozen just a few days before began to flow freely. Gentle breezes again rustle the flowers in gardens the World over.

You have helped defeat a beast of the purest evil, but now your real job begins. You must make sure the people of the World never forget that it is they who will keep the Dark King from ever returning. You must work to help usher in a new age of love and mutual respect. That is, when you return from just one last adventure...
